

How to apply for a home

Step by step

- 1** Visit www.progressgroup.org.uk to find the website for the choice-based letting scheme for the area where you want to live.
- 2** Go to the choice-based letting scheme website.
- 3** Complete the online housing register application form. You will need to provide identification and other information to support your application. This might include information about your income, your outgoings, and your connection to the area.
- 4** Your choice-based letting scheme will inform you of your application's status by email and let you know if you can now 'bid' on a property.
- 5** View available properties online.
Top tip: Properties are always being added, so it is worth regularly checking if you are keen to move or to ensure you don't miss out on your ideal home.
- 6** Bid on a property to express your interest in it.
- 7** We will contact you to organise a viewing of the property.
- 8** Agree on the moving-in date.
